**\$3,595**

Made in the U.S.A.

The Power Cheek Bender is used for forming right-angle (male) flanges for Pittsburgh fittings. This machine increases productivity when bending 90° male flanges reducing the manual operation of a hand folder. The simplicity of the design of the Ductformer Cheek Bender allows for an affordable price and maintenance free operation. Duct shops using this machine can expect many years of trouble free service from the Ductformer Power Cheek Bender.
